

Group at a Glance

Atkins is the UK's largest engineering and design consultancy and one of the world's largest design firms.

We plan, design and enable our clients' capital programmes.

We have the breadth and depth of expertise to respond to the most technically challenging and time-critical infrastructure projects and to facilitate the urgent transition to a low-carbon economy.

Our business segments

Design and Engineering Solutions

We deliver engineering and technically integrated design to a wide range of largely UK clients in the public, regulated and private sectors. Our areas of operation include water, environment, nuclear, power, education, aerospace, defence, oil and gas and infrastructure design.

Relative size of segment by revenue

£390m

Revenue

Highways and Transportation

Our principal activities are transport planning, advising UK Government and highway authorities on transport policy and investment appraisals; the design of road improvements; applying intelligent transport systems to enhance network performance; and delivering integrated road network management and highway maintenance services.
